

Mentoring puts Ant on right track

WHEN Sunshine Coast downhill mountain bike racer Antony Moore competes at the world championships in Canada this year, it will be with the help of sponsor and mentor Jeremy Peterson, of Venture Cycles in Noosaville.

Antony, 16, will ride a \$12,000-plus mountain bike provided by Jeremy when he competes at the world titles in September as part of the Australian team.

To help Antony get to Canada, Venture Cycles in Venture Drive, Noosaville, will host a fundraising event and sausage sizzle this Saturday, June 13, from 9am.

Antony is ranked in the top five in the sport in Australia and supporters say he has a good chance of qualifying for the finals in Canada, although he will be up against older competitors.

"We hope this will raise his profile and help put some money in the bank for him to get to the world titles," Jeremy said.

THANKS: Antony Moore with sponsor Jeremy Peterson.

Jeremy himself competes in the open men's category in the sport at State and national level and has been ranked in the top five in Queensland. He said Ant was getting "better and better" and would also be training for the 2009/10 Australian National Series.
